

Grantmaking statement

The Johnson & Johnson Foundation DOES NOT ACCEPT UNSOLICITED PROPOSALS. Our team works extensively with NGO partners to co-create projects aligned with defined strategic priorities. Together with our partners, we focus on building and strengthening a robust primary care health workforce made up of capable, confident and resilient nurses and community health workers who can provide quality care to the communities they serve.

The Foundations are managed by an independent Board of Directors consisting of senior Johnson & Johnson leaders from across the Enterprise. The Directors are responsible for overseeing the affairs of the Foundation, ensuring the Foundation's assets are used exclusively in furtherance of their charitable purposes compliant with local charitable regulations and laws.

The Foundations do not make grants to individuals or grants to organizations that are designated for named individuals.

The day-to-day operations of the Foundation are managed by the Johnson & Johnson Global Health Equity team which has responsibilities for specific strategic areas and program management.
